

Product Description: HP Photosmart R707 Digital Cameras

Manufacturer: Hewlett-Packard Company, of Palo Alto, Calif.

Date Recall Posted: 06/07/06

Summary Of Recall: The digital camera can cause certain non-rechargeable batteries, such as the Duracell CP-1, to overheat when the camera is connected to an AC adapter or docking station, posing a fire hazard.

What You Should Do: Consumers should stop using the recalled cameras and contact HP as they have developed a firmware update that prevents the camera from applying a charge to a non-rechargeable battery. Consumers can download this update at www.hp.com or contact HP directly. Do not use single-use, non-rechargeable batteries until the firmware has been updated. Consumers are encouraged to update the firmware even if they do not use or intend to use a non-rechargeable battery.

For additional information, visit HP's Web site at www.hp.com or call HP toll-free at (866) 304-7117 between 6 a.m. and 6 p.m. MT Monday through Friday.
